HARVESTING THE COLLECTIVE WISDOM

Moderation: NANCY WHITE

MAHEDER ADIMASSU, Maheder food processing PLC, General Manager

HERNÁN MANSON, ITC, Head of Inclusive Agribusiness and Trade
Inclusiveness requires a strong integrated – system approach that is bottom up and generates the demand to be included and for the support services. Different approaches are not either or they go together: we need to create impact.
Reinforce national systems and institutions to facilitate participatory approaches and embed youth agenda as policy of state – not just government policy (PAKISAMA example) resilience and trajectories!
What Resonates? And what is a challenge?

Government, Farmers, business SMEs; Donors and IOs / CSO cannot solve it alone!!
Partnerships are key
And also with larger private sector...
What Action in future? Not just jobs but quality of livelihoods....
Also Focus on the **bottom of the pyramid** and empower business development, Farmer and sector Organizations + **Youth capabilities** to learn and adapt
