CAADP Business Meeting

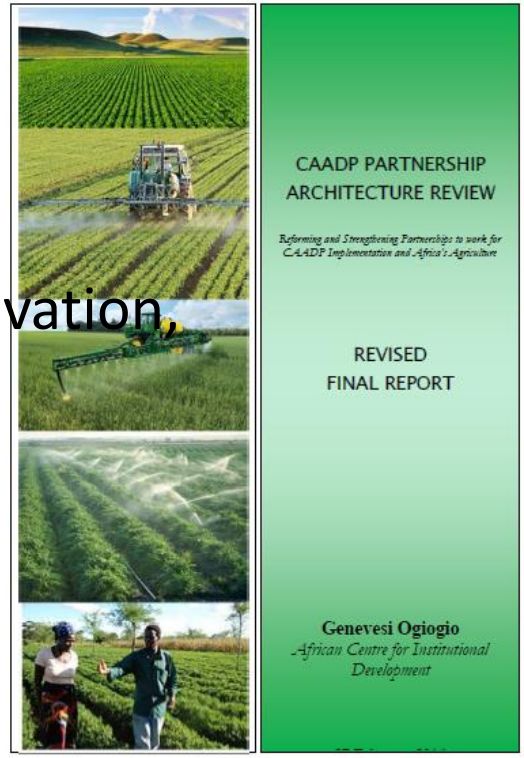
Implications of the „CAADP Partnership Architecture Review“ for the DPCG

CAADP Development Partners Coordination Group DPCG

Background

CAADP Partnership Architecture Review

- Commissioned in December 2015 by NPCA
- Contents: analysis of the whole structure, motivation, purpose, performance and results, key actors
- Suggestions on reforms and adjustments to strengthen effectiveness and results



Main Observations

- High relevance of current partnership structure with significant impact on the implementation of CAADP
- Varying performance on the individual component level

Main findings of the review for the DPCG

Overall positive perception:

- DPTT ranked second behind CAADP PP regarding its importance
- Important and relevant structure in the CAADP Partnership Architecture for DPs to coordinate
- Continuation recommended…

…but also:

- Absence of commonly agreed operational principles, guidelines and procedures for the members.
- No operations programming tool for CAADP-supporting DPs
- Unbalanced information, weak coordination
