**Planning to
purchase a bigger
and less energy
consuming oven**

A photograph of a market scene. In the foreground, a man in a red long-sleeved shirt is leaning over, writing on a document with a pen. He is looking at the document. To his left, a man in a plaid shirt and a blue t-shirt is looking at the document. In the background, there are other people, including a man in a patterned hat, and stacks of blue crates. A blue truck is visible in the background. The scene is outdoors, likely at a market stall. The text is overlaid on the left side of the image.

Need funding to purchase a hybrid truck as you are unable to afford the cost of transport for your goods

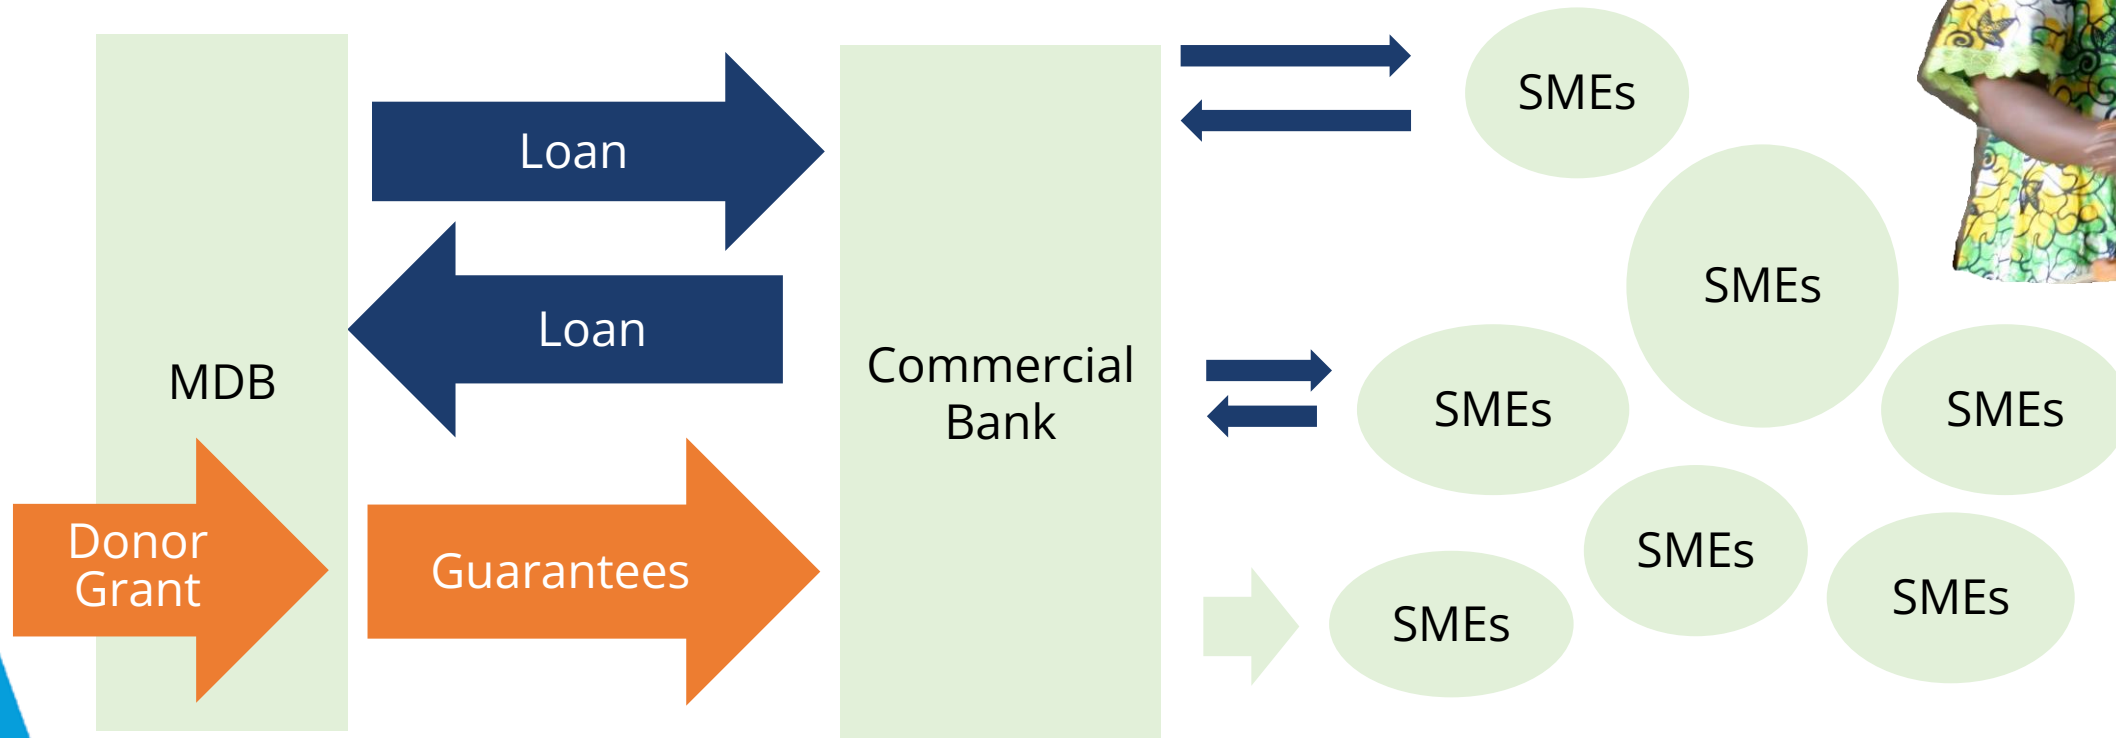

Commercial banks

How can I lend to you?
High risk, fluctuating
revenues. You can't
afford the higher interest
I would have to charge to
mitigate risk.

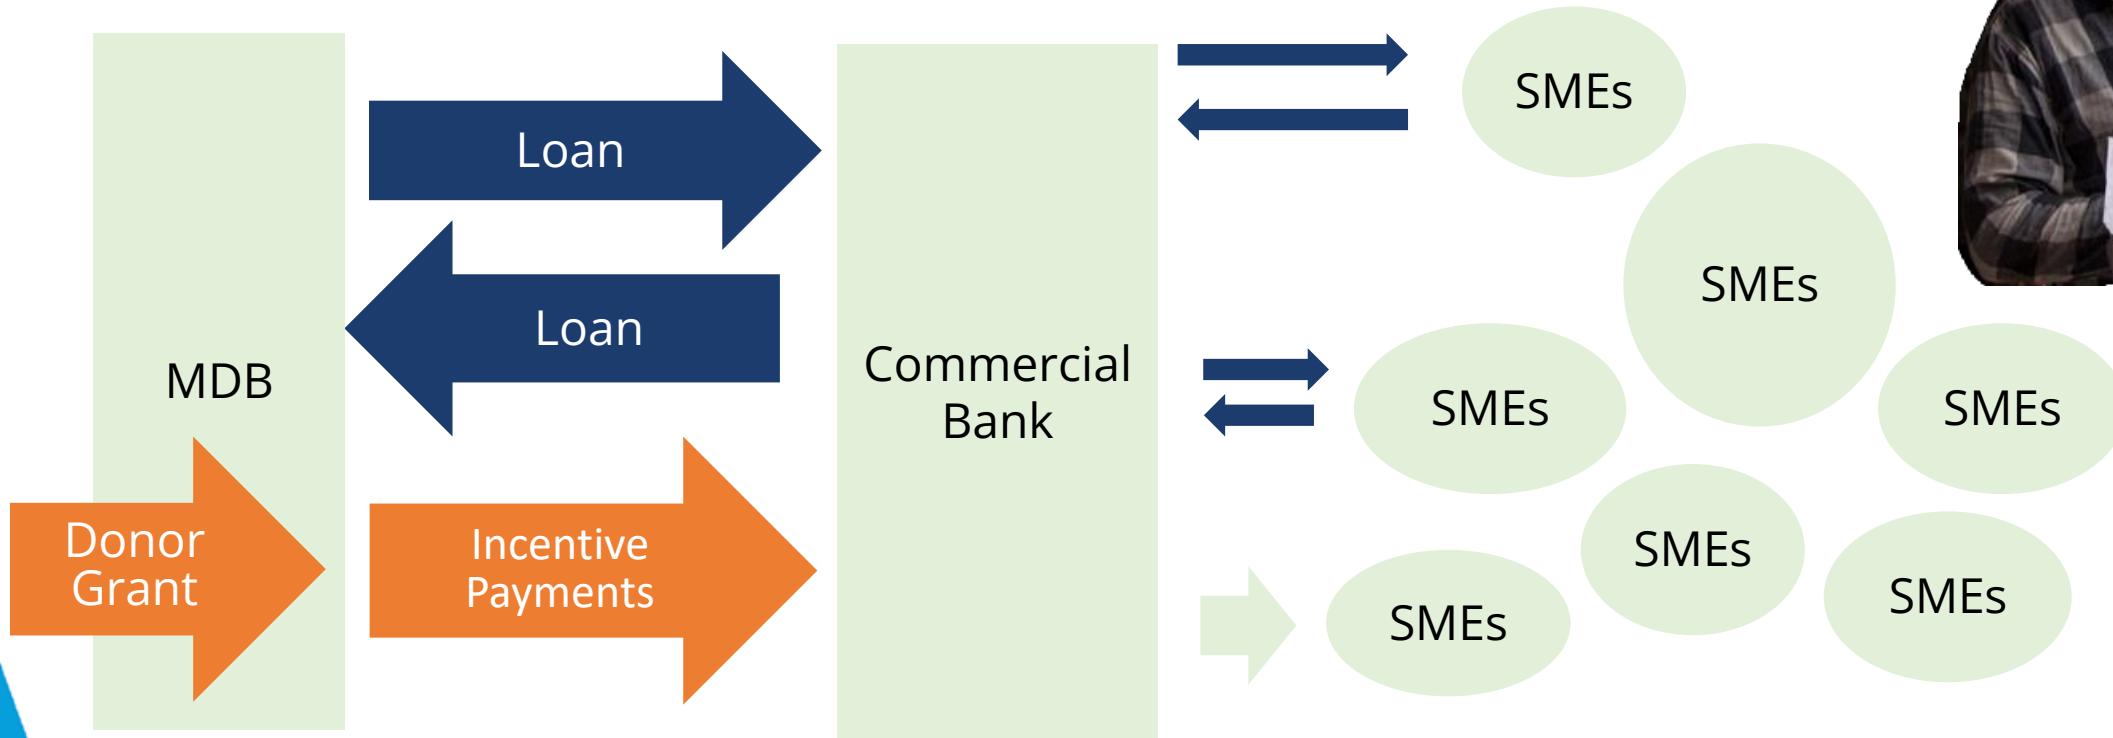

MDBs can help – they
support banks with donor
funded instruments that
allow us to lower the risk
thresholds and include
more borrowers.

Let's see how they might do that.
